

Recycling unsealed roads to reduce dust & maintenance using insitu stabilisation

This is a joint Federal Government, industry and Griffith Shire Council research project. The aims of the project are to:

- substantially reduce dust generation from unsealed roads
- reduce maintenance frequency and hence maintenance costs to Shires
- provide safe all weather access on unsealed roads
- incrementally improve the structural strength of the road

Project Details

Site	Barber Road, Griffith
Construction date	28 th May 2008
Shire	Griffith Shire Council - Contact: Mr Dallas Bibby
Accredited Stabilisation Contractor	Downer EDI Works Pty Ltd Contact: Scott Young ☎02 9897 4333
Binder	3% of hydrated lime (2.3% quicklime)
Binder supplied by	Blue Circle Southern Cement www.bluecirclesouthern cement.com.au
Stabilisation depth	150 mm
Stabilisation width	6 m

Unsealed roads - Lime stabilisation trial at Barber Road, Griffith
